PLEASE BRING THIS CATALOG WITH YOU.

The decision on the part of Ralph J. Taylor to lease a large portion of the land comprising Imperial View Farms brings about the necessity for a change in the operation of this famous Shorthorn cattle herd. At the outset Mr. Taylor wishes it to be known that he is not retiring from either the farm or the Shorthorn cattle business. The new land arrangement, however, calls for such a drastic reduction in the number of head that it becomes necessary for him to disperse everything that is of saleable age and in saleable condition. Everything will be sold with the exception of the cows that are past eight years old and these, along with a few white and light colored heifer calves, will be used as the nucleus upon which to build.

This dispersion releases a most valuable lot of breeding cattle to the public at this time. Both herd bulls, Dreadnaught Impression and Imperial Masterpiece, are to be sold and they are easily the two best stock bulls ever in service at Imperial View. Twenty cows with calves at foot by Dreadnaught Impression, many of them well forward in calf again, make up a group of quick profit females that should lend a ready appeal to all prospective buyers.

A study of this catalog will reveal the fact that this is one of the most richly bred collections that has been offered in years. Those who have known the herd will agree that its members have been wonderfully prolific and profitable producers. Every female of breeding age in the herd, with only one exception, has produced a calf within the last year. No attempt has been made to put these individuals in high flesh condition. They are offered in their working clothes and there will be no time lost by those who buy them. These cattle are healthy, useful ages, richly bred and most profitable producers. This is the dispersion of everything saleable in a great herd. It is an event that deserves the attention of every man who is interested in the improvement of his herd.—Hal Longley of The Shorthorn World.

Announcement

In the Spring of 1861 Grandfather Jones bought and moved to Imperial View Farms. He was engaged in the breeding and feeding of live stock on an extensive scale. A good herd of Shorthorns were included in the farm operation and have been an important factor since that time.

When I was eighteen years old a natural interest in good live stock brought me to the farm and I began at Imperial View in 1915. The first year I had a start of four registered Shorthorn cows. From this initial start we gradually added to our small herd and, with the natural increase, brought it up to twenty cows.

The herd has always been maintained under natural farm conditions and has been one of our chief sources of profit. We were mindful of the need of that combination of good feeding and milking qualities so essential in the farmers style of cow, and we have never lost sight of that quality through the following years in the building of our herd of cattle.

A few farmers have been successful as strictly grain farmers, but on most of these farms the productiveness has been lost to such degree that unless a program of legumes and live stock is included, the heritage of the soil is lost.

A herd of good Shorthorn cows can convert the clover and other grasses in summer and stalk fields, straw and otherwise waste products in winter to better advantage than any other class of live stock.

We went through the years of inflation when sales were abnormally high and prices ranged in the thousands of dollars. We also went through the years of depression when the situation looked hopeless and fortunes were lost. During both the extremes we found our farms remained at about the usual productiveness, our cow herd went on about their business of breeding good farm cattle. As a result we have not materially suffered with the raising and lowering of commodities, as many did in the stock market or in other lines of investment.

The depression has left its mark upon us all, but during those years it was the live stock, and I may say more especially pure bred live stock, that made the best return. Now with greatly improved conditions and a most abundant supply of feeds, it seems that live stock is about to come into its own, stronger than ever.

Our annual sales of Shorthorns were never extreme in either abnormally high or low average. It has been a pleasure to us to invite our many friends and admirers of good cattle to come to our farms each year to appraise our work of breeding and feeding good Shorthorns.

Now we have come to the place that a change in our program of operation of the farms makes the dispersion of our herd seem advisable. We feel that in the twenty-two years as a breeder of Shorthorns, we have never before owned such a good herd of producing cows, such excellent herd bulls and so near a perfect calf crop as we have today.

It is not my plan to retire or enter some other line of business, but we are offering for your appraisal all the cattle in condition to sell at this time, which includes the heart of our breeding herd. We are retaining the old cows past eight years of age and a few light

colored heifers as a nucleus to again build up our herd to the size and standard it is today.

We have had many public sales, which we feel is the fairest and best means of selling, but never have we offered so much value as the grand lot of breeding stock we are offering you in this sale.

We cordially invite you to make your own appraisal of our work of breeding and assembling the greatest lot of material we have owned at any time since our connection with the breed.

RALPH J. TAYLOR, (Owner).

Terms and Conditions

LOCATION—Imperial View Farm, where the sale is to be held, is located 1 mile south and $\frac{1}{2}$ mile east of Williamsville, Ill., on good oiled roads. Williamsville is 12 miles north of Springfield, Ill., on the Chicago & Alton Railroad, on the Interurban and on the Springfield-Chicago state hard road, Route 66, and can be reached on paved roads from any direction.

TIME—The sale will begin at 12:30 P. M. sharp. Sale will be held under cover. Lunch will be served by Ladies of the M. E. Church.

GUARANTEE—Although this is a Dispersion Sale, we are making the same guarantees as in our annual draft sales. We know these cattle to be sound, healthy and prolific. The owner is **not** moving away and is **not** retiring from the cattle business and he will be ready to make good on any animal that does not live up to the following guarantee.

All bulls are guaranteed to breed with proper care. No young bull shall be allowed to serve before 14 months old, or run with the cows until 20 months of age. Females four months in calf at time of sale or those that have calves at foot show evidence of breeding and no other guarantee is given. All other cows and heifers over sixteen months of age shall prove to be in calf or get in calf. If an animal fails to breed after a reasonable trial they can be returned if in good condition and another animal of equal value will be given in exchange after we have given them a reasonable trial, purchaser paying return expense.

All cattle are sold subject to a sixty day retest for tuberculosis. The failure of any animal to meet the guarantee must be reported in 70 days from date of sale. Herd has been under Federal Supervision for T. B. for twelve years.

Health certificate for both Bang's disease and Tuberculosis will be furnished where required. All animals have been tested for Bang's Disease within 30 days of the date of this sale.

Certificates of Registry for each lot as well as applications for calves at foot or in dam will be furnished with each lot sold. Transfer for each lot sold will be made to new owners.

TERMS—CASH.

Animals at owners risk when sold. All stock will be cared for a reasonable time after sale and loaded on truck or train free of charge.

Will not offer any animal that we consider the least doubtful. Service dates given are correct to the best of our knowledge, and will be given sale day.

We waive all responsibility in cases where purchaser does not conform to this guarantee and report failure of breeding guarantee within 3 months.

We will not be responsible for any accidents that may occur, but will make every effort to provide for the safety and comfort of our guests.

Dreadnaught Impression

was purchased from the Mathers herd as being probably the most suitable for use in our herd of any bull we had found. He is especially a good headed bull and has given most satisfactory service in our herd. His calves are a most correct type, are pleasing in the way they feed out, and we feel in offering him in this sale with about 25 of his get that here is a real opportunity for someone to own a proven and tried sire. He has lived in the open, has done heavy service and is very sure and gets calves of high quality. He will sell in moderate flesh and will be a bargain for someone. His sire, in International champion, was noted for the quality of his calves, including the champion female Leveldale Rosewood.

IMPERIAL MASTERPIECE

A Son of an International Grand Champion

Imperial Masterpiece

came to our herd as a calf, purchased at foot of his dam in the 1936 Jones-Robbins sale. I knew we would have need of a young bull for use in our herd and after looking the sale offering over closely, I asked Earl Robbins what, in his opinion, was the best prospective bull calf to be sold, and without hesitancy, he pointed out Mina 15th and the red bull calf. I was particularly impressed with the cow as she was about all you could ask, the dam of a real herd bull to be. She was a thick, deep cow, of beautiful conformation and a grand milker. I was fortunate in my selection, for this bull calf has developed into a grand individual, is a most pleasing red color, a strong head and looks every inch a real sire. He has been used liberally this season, has settled his cows well, and a few will be right at calving or have calves at foot by sale day. Others are forward in calf. Many good cattle judges have been well impressed with

him, a few pronounce him the best bull ever at Imperial View, and it is a real disappointment for us to sell this bull at this time and only because of a dispersion of our cow herd are we offering him. Fortunate indeed is the man who buys him and little need be said of his breeding for I know it is familiar to all. Through the dam he has a double cross of the great Lord Avondale. Through the sire an International champion and sire of the champion female in 1935, also sire of the champion bull in 1936, he inherits his Browndale blood.

Imperial Missie 3d

is a very choice bit of color—character and conformation that will please any admirer of good cattle. She is, like our other heifers, in only pasture condition, and has not had any feed or fitting as it was our intention to build up this strong blood of a family of which we are particularly proud. We think she looks good enough to carry a lot of appeal as a prospective breeding cow, and no further comment is needed.

Haylands Missie 18th

is a beautiful roan cow that it has always been a pleasure to have in the herd. She is selling with her fifth calf at foot, a roan bull calf by Dreadnaught Impression. She has produced three heifers for us that are just about right in quality and conformation. Her last year's calf, a beautiful roan heifer is probably as pleasing a type as we have produced in our herd and is a good representative of her calves. She is also selling in this sale. She is a daughter of the International champion Loyal Browndale, her dam is by the celebrated Imp. Cudham Dreadnaught and her granddam is by the great Earl of Kingston. Her pedigree is about the last word in noted ancestry, her type and general appearance rate her as one of the tops in any good herd, and we feel it will be hard to over-rate this pair.

Flash Village Miss

is selling forward in calf to Imperial Masterpiece and is one of our highly prized breeding cows. She has produced a calf every year in our herd since a two year old and is a grand milker. We feel justified in stating here that in order to retain a few of our cows past eight years old and a few heifer calves that will fit our program of operation better just now, we are keeping the heifer calf from this cow and a few others that are selling as dry cows forward in calf. This is a most dependable cow and I hope will be appreciated. She is the type of cow more farms would be the better for owning.

IMPERIAL MAID and Heifer Calf by Sensation Again

A Family of Famous Producers.

Imperial Maid
2d

is selling with a good heifer calf by Dreadnaught Impression and will be rebred. She is very compact—has a most breedy appearance and comes from a line of cattle we have always prized highly. You will note her dam, shown in the picture, was a beautiful type and we think this heifer and calf will grow into a most valuable pair. Both are babies in age and have a lot of promise.

42d Duchess of Gloster

is all you might expect her to be from such noted ancestry. She is a cow of beautiful type, swings a grand udder, having raised two calves this year and can always be depended upon to produce a good calf. This cow was cataloged as a major attraction for our sale in 1935, but due to an injury from which she has completely recovered, she was not included in the sale. Her bull calf was top of our bull sale this year and now heads the good herd of Earnest Smith, Springfield, Ill. Mr. Smith is highly pleased with him and the fortunate man who gets this cow may always be justly proud of her. She sells forward in calf to the service of Imperial Masterpiece and is deserving of real attention.

Imperial Gloster 1829590—Is another of these richly bred Duchess of Glosters that we so highly prize. She sells with a roan bull calf by Dreadnaught Impression and is rebred to Imperial Masterpiece. This is her second calf, the first also by Impression, was a solid red. She is a pleasing type of good quality and breeding.

Pine Grove Victoria

is usually the pick of the herd to most visitors who have seen our cattle in pasture. She is selling with a real herd bull prospect by Dreadnaught Impression and will be re-bred. The calf is a solid red in color and is very promising. The cow is a grand milker and produced a good roan heifer calf as a two-year-old, selling in our last sale. When you note she is carrying her third calf before she is four years old as are so many others, you will appreciate how dependable these cows have been as producers. This cow is just one of the many reasons why we find it hard to dispose of these grand breeding matrons. I was a breeder of Shorthorns many years before I was in position to own one of these beautifully bred Victorias and in selling this pair of cattle I believe as much value goes as any one lot ever sold from our herd. It is only in Dispersion Sales that such cows as this can be bought and the buyer of this pair cannot help but feel he has a bargain at any price.

Pine Grove Augusta 4th 1826489—Is a pleasing type of cow. She raised a good calf as a two year old,—nursed two calves this year and did a good job of raising them which is good evidence of the milking quality we have maintained through our cow herd. She is now carrying her third calf, was bred in June to Imperial Masterpiece and the calf should be a real one. She is a naturally polled cow and might be a valuable addition to any strong Polled herd wanting to put in a grand individual of most fashionable breeding. We can highly recommend this cow.

This pair of cattle are foundation stock of first order in quality and breeding.

Imperial
Rosewood 6th

is selling in calf to Imperial Masterpiece, and she is a beautiful heifer. Her dam, now 12 years old, has produced a calf every year for us since a two year old and in each of our sales her progeny have been at the top. We had planned to build up a number of these daughters of Sensation Again and this heifer was rated as one of our very best from one of our most dependable cows.

We think this calf, if properly fitted, is a real show calf and although the heifer is thin, she comes from a most prolific and dependable cow that has always produced good cattle. Note the particularly strong line of bulls and you will know why this calf has license to show quality.

Golden Lady 25th 1765306—Has raised four calves for us and is one of the most rapid breeders in the herd. She calved when under two years of age and has never had much time to put on flesh, is a heavy milker and will probably not be appreciated as the good breeding cow she really is. Her last calf, died at two months of age but she is safely settled again to the service of Imperial Masterpiece. This is one of the dependable young cows.

These four heifers, daughters of Dreadnaught Impression and Sensation Again, were all sold in our last sale. The dams of all four of them are to be sold in this dispersion.

Imperial Lavender 3d 1805458—Is selling with a choice roan bull calf by Dreadnaught Impression and is rebred to Imperial Masterpiece. This is the second calf, the first is a most promising steer that will be shown at the St. Louis Boys and Girls Beef Club this fall and will be a strong contender for high place. The dam of this young cow, Lavender Bride, has produced a good calf every year, is now 12 years old and one of our best cows. It would be difficult to write a more pleasing pedigree and this pair of cattle should not be overlooked. Note the particularly strong line of good bulls.

Royal Red Lady C. 1691155—Has a good heifer calf at foot by Dreadnaught Impression and is rebred to him. She has raised us four straight heifer calves, carries a wonderful udder, and is a most valuable breeder. We think as much of this cow as any in our herd for a real dual type. Her breeding is faultless and her record as a dependable breeder makes her one of our most valuable cows.

The group of cows pictured above are a good representation of the class of females we are listing. Note uniformity of type, good breedy heads and pleasing colors.

Imperial Roan Lady

is one of the choicest two year old heifers we have ever produced in our herd. She is a beautiful roan. Her dam, also selling, shows evidence of the milking quality so essential in a good breeding cow. Her bull calf by Impression is a prospective herd bull of the choicest blood-lines. She will be rebred. We think very highly of this pair and as is the case of all our two year old heifers, they are in medium flesh, all nursing big calves.

Dreadnaught Impression—sire, Dreadnaught Salute 1404169 by Dreadnaught Clansman 1269926, out of Lustre Queen 9th 1276317. Dam, Buttercup 2d 1693671 by Bridgebank Sheik 1511221, out of Taana Buttercup 1474083.

Divide Typedale—sire, Browndale Archer 1406824 by Browndale Count 1156438, out of Poplar Camelia 952145. Dam, Divide Patience 2d 1271262 by Meteor 820949, out of Divide Patience 640417.

Cumberland Marshal 4th—sire, Cumberland Marshal 412384 by King Cumberland 288-383, out of Marshal's Queen 87585. Dam, Bernice 89113 by Whitehall Victor 323513, out of Beatrice v60-1018.

Imperial Violet 1904118—Is a good example of what a good breeding cow means in a herd, and we are confident in the outcome of this heifer. She was weaned early as her dam will calve early and will not be in high flesh, but she is a beautiful type and we believe good enough to go into any strong herd.

Mina 12th

is a deep bodied good red cow with an especially good red bull calf at foot by Dreadnaught Impression. She is re-bred to Imperial Masterpiece and is one of the most pleasing cows in our herd. She is a regular breeder of outstanding calves. A bull calf headed the herd of John Karns of Eldorado, Ill. Her last year's red daughter was among the tops of our last sale and is now owned by Hollis Hanson of Connersville, Ind. She is a grand milker and comes from a line that produced many of the famous show cattle in the Carpenter and Ross herd. A herd of cows selected along this type and mated to a good bull must always command attention with the quality of the calves they should produce.

Mayflower Blossom 1699406—Is a grand red cow with a promising red bull calf at foot by Dreadnaught Impression and rebred to him. She is now carrying her fifth calf, having produced three heifers for us. She comes from a great imported cow and is sired by a grandson of Marquis of Millhills, conceded to be one of the greatest bulls of his time in Great Britain. Also note the sire is a grandson of Revolution. This cow has been a most rapid breeder, is a grand milker and rates as one of our very best matrons.
